

SVR512 Max

The Stealth Tracker — Ultra-Thin, Covert, 3+ Year Battery

The SVR512 delivers dependable wireless GPS recovery protection in an ultra-compact design optimized for motorcycles, powersports vehicles, recreational vehicles, trailers, and short-term asset protection applications. Fully self-powered and easy to conceal, the SVR512 combines flexible installation, reliable recovery performance, and up to 3 years of battery life.

KEY FEATURES

- Ultra-Compact, Concealable Design
- Self-Powered — No Vehicle Wiring Required
- Slim Profile for Motorcycles, ATVs & Golf Carts
- Fully Wireless — No Installation Wiring
- Multi-Carrier Coverage: U.S., Canada & Mexico
- Configurable Reporting + Stolen Vehicle Recovery Mode
- IP67 Sealed — Submersion, Mud & High-Pressure Wash
- Motion-Activated Reporting — Maximizes Battery Life

APPLICATIONS

- Covert Asset Recovery
- Motorcycle Theft Recovery
- Powersports & Golf Cart Monitoring
- Recreational Vehicle Tracking
- Trailer & Small Asset Protection
- Dealer Inventory Protection
- Short-Term Asset Monitoring

CELLULAR & GPS

Network Technology	LTE Cat-M
U.S. Carriers	AT&T, Verizon, T-Mobile
Canada Carriers	Bell, Rogers, SASKTEL, TELUS
Mexico Carriers	Telefónica, Telcel
Constellations	72-channel multi-constellation
Acquisition Sensitivity	-148 dBm
Tracking Sensitivity	-167 dBm
Acquisition Time	1s hot / 28s cold start
Location Accuracy	1.5m CEP horizontal

ENVIRONMENTAL

IP Rating	IP67 (Submersion-Rated)
Operating Temp	-20°C to 60°C
Storage Temp	-40°C to 85°C
Relative Humidity	Up to 90% non-condensing
Shock & Vibration	SAE-J1455

BATTERY & POWER

Battery Capacity	4,500 mAh
Battery Technology	Li-MnO2 / Smart Power
Battery Life	Up to 3 Years
Rechargeable	No

PHYSICAL

Dimensions	83.6 x 78.2 x 23.5 mm
Weight	129g
Accessories	Optional Magnetic Mount Bracket

INPUTS & OUTPUTS

Internal Sensors	3-axis Accel., Temp., Battery
Antennas	Internal Cellular / Internal GPS
Buttons	Power On
Status Indicators	LED Status Indicator

REGULATORY

Certifications	FCC, IC, PTCRB, CE
